

SLC Series 36" , 41" , 54" and 72" Color scanners

Full color, wide format scanning at monochrome speed and prices. The SLC936C, SLC1036C, SLC954C and SLC972C are wide format color scanners which can also perform monochrome scans for service houses, engineers, planners, utility managers and technicians who create and maintain their own maps. The SLC series scanners are the efficient and premier solution for wide format scanning in a service house environment because of it's dual functionality.

Overview

Monochrome - Color - Grayscale - up to 9600 DPI on SLC936C, SLC941C, SLC1036C, SLC954C and SLC972C

Capture Superior Color, Grayscale & Monochrome Digital Images at High Speeds! The SLC936 can scan grayscale and monochrome images at an impressive 2 inches per second, while the SLC1036 is the world's fastest large-format scanner at 4 inches per second (400 dpi)! The SLC1036 scans full 24-bit color at 2.5 inches per second (100 dpi).

Now scan documents up to a 1/2 inch thick at astonishing speeds! Items such as foamboards, artwork, and other unusually thick documents can be digitally saved.

Using WIDECOM's print driver, you can now plot directly to your favorite inkjet plotter for color and monochrome copying!

Using WIDECOM's advanced filters such as despeckle, deskew, diffuse, sharpen, smooth, individual RGB adjustment, & Gamma Correction!

Compatibility with a wide range of color & monochrome applications is key to delivering value. And with WIDECOM, you will have the highest number of third party software solutions no matter what your application!

High Speed SCSI Interface!
